

### Using These Measurements

This document contains the approximate room measurements for Student Apartments. We recommend that it be viewed in Adobe Acrobat, which can be downloaded at Adobe's website, [www.adobe.com/reader](http://www.adobe.com/reader).

Because there are many configurations available for every area, these layouts and measurements should be seen as general guidelines. All measurements and drawings are made to scale, however the drawings may not reflect all aspects of every room. There may be architectural features that do not allow furniture to fit into a space. We recommend saving all receipts for purchased furnishings just in case they won't fit.

The Housing and Residence Life main office is available for questions at [reslife@samford.edu](mailto:reslife@samford.edu) or (205)726-2956. We will do our best to provide any details or measurements we currently possess but we cannot promise to provide answers to all possible questions. Visiting rooms before move-in is not allowed.

### Other Tips

All Samford owned furniture must stay in the apartment. Residents are welcome to bring in their own furniture and rearrange provided furniture but the Samford owned furniture may not leave the apartment or be stored elsewhere. Furniture may not be in the same layout as the drawing at move-in.

**Configuration Notes:**

Applicable to Student Apartments

All drawings are 1/4" = 1'-0" scale

Dimensions are meant to be general figures and may not be exact
